

Outreach Stories 2023-2024

Mrs. Bechtler - Pre-K Teacher

Pair of Dice's STEM workshops have sparked passionate conversations in the classroom. I have found that my students are using a more innovative approach to create, explore, and incorporate STEM into their everyday lives.

Robin Williams - Discovery Children's Museum

I wanted to thank the Pair of Dice Robotics team. The entire team and all our visitors greatly appreciate your demonstrations and learning experience.

Teachers from Girls in Tech

it is both very inspiring and incredible how well-planned you are on every step you take. Certainly learning a lot from just that!

Henderson Equality Center

Thank you for your team's donations, we will put them to good use! We would love your help with future projects.
